I Internal Assignment Questions (Sep 2025)

Internet of Things(BCS701)

Class: 7th Semester CSE **Max.marks:25**

Q. No.		Question	Marks	CO	RBT
		PART A			
1.	(a)	Explain request-response and publish-subscribe communication model with neat diagram.	10	CO1	L2
		OR			
2.	(a)	Explain IoT Level 1 and IoT level 2 with neat diagram.	10	CO1	L2
		PART B			
3.	(a)	Discuss about network operator requirements in detail.	10	CO2	L2
		OR			
4.	(a)	Explain SNMP protocol along with its limitations.	10	CO2	L2
		PART C			
5.	(a)	Explain information model of the home automation IoT system with neat diagram.	5	CO3	L2
OR					
6	(a)	Explain process specification of home automation IoT system with neat diagram.	5	CO3	L2

CO1: Describe the fundamental concepts, architecture, physical and logical design, and enabling technologies of the Internet of Things.
CO2: Compare IoT with Machine-to-Machine (M2M) communication and explain the role of SDN, NFV, and NETCONF-YANG in IoT systems management.
CO3: Apply IoT platform design methodology and develop logical IoT solutions using Python programming.
